ALUSNA BANGKOK PASS TO ADM FELT. CNO PASS INFO JCS

There are growing indications that GRC is planning some sort of commando raid. In order to spike their guns by a little time and at same time give them a psychological shot in the arm propose as follows: That I suggest to Tiger Wang He study feasibility of a commando raid against radar and gun installations on Chen Hai Peninsula that at same time my staff will study and present to him our concept of its feasibility and chance of success. As a condition to the foregoing I could indicate to him this sort of thing would probably require US concurrence and if he agrees to the concept I will attempt to get it. Advise.
